INTERIORS

Hi! I'm *Emma* Robinson.

I started Oh I Love That, a London based interior design and styling studio, in 2012 and we have grown from strength to strength since then creating beautiful spaces all over London, the South East of England and internationally.

Our studio style is understated luxury. We aim to create spaces that are timeless, comfortable, special and feel like home.

Design is my passion and I absolutely love seeing spaces transformed to reflect my clients needs and desires. Every project that I take on is extremely important to me and every detail is well thought through, leaving my clients with a home that is uniquely theirs.

I'd love to help you transform your space.

TESTIMONIALS

Lovely things our *clients* have said about us

“I am *delighted* with the result!”

My project involved decorating and furnishing a large sitting room from scratch. I didn't know where to start! Emma from Oh I love that! helped me to think about what I needed from the room and how to best arrange the seating and lighting to make the best of the space. I knew I wanted greys and teal as well as brighter accents and Emma sourced a huge number of samples which she then helped me pull together into a colour scheme for sofas, 2 chairs, an ottoman, footstool, cushions and paint for the walls. Through her contacts, Emma had my beautiful ottoman made exactly as I wanted it for substantially less than the cost of similar ottomans I had seen online. I am delighted with the result - thank you Oh I love that!

“I couldn't be *happier*.”

Having moved 8 times over 12 years, I had run out of ideas for our new home. Emma from Oh I Love That came and talked me through some ideas and gave me the impetus to get decorating again. Her approach was very different from any interior professional I had used before. She listened to my thoughts and concerns and stuck rigidly to the budget I had in mind. Her openness meant that I didn't have to do the entire house and ended up focusing on a couple of rooms. Whatever I needed, she could either source or make. Emma created a bespoke breakfast area in our kitchen including an upholstered corner bench. She designed and made cushions and recovered chairs throughout the house to tie the scheme together. I could not be happier with the result and can't wait to work on the other rooms with her.
